

WB POWER SERVICES

POWER YOU CAN TRUST

THE EXPERT AND RELIABLE DELIVERY OF CRITICAL POWER INSTALLATIONS, GENERATOR SALES, MAINTENANCE AND HIRE SOLUTIONS NATIONWIDE.

KOHLER.
Authorized Distributor

WBPS
POWER YOU CAN TRUST

OUR AWARDS

WBPS provides critical power services to some of the UK's most important businesses and organisations, ensuring essential services are protected across data centres, hospitals, schools, government sites and other commercial operations. We have four divisions encompassing Projects, Hire, Sales and Maintenance, as well as a team of engineers, project managers and logistics managers who are directly employed by us. It means there is very little need for sub-contractors or middlemen. Just specialists offering a complete solution.

POWER YOU CAN TRUST

PROVIDING CRITICAL POWER SERVICES FOR MORE THAN 35 YEARS

WB Power Services (WBPS) was first established in 1983 and since then we have grown significantly in size and service capability. Today, we provide critical power services to some of the UK's most important businesses and organisations, ensuring essential services are protected across data centres, hospitals, schools, government sites and other commercial operations.

As a family-founded, owned and run business, we are proud to retain our family values on a national scale as we strive to be the biggest and the best power generation company in the UK.

DELIVERED BY SPECIALISTS

We have dedicated teams for power solutions, generator maintenance and hire, as well as engineers, project managers and logistics coordinators who are directly employed by us. It means there is very little use for sub-contractors or middlemen. Just specialists with a wealth of knowledge and expertise offering a complete solution that's as bespoke as your needs.

PARTNERS IN POWER

For more than three decades our company ethos has been to build up long-standing customer relationships as not only a service provider, but as an extension of your own team. Our wide portfolio of relationships lasting decades is a great testament to this. As is our ability to provide an industry-leading 24/7 365-day service that's rapid, reliable and cost-effective. It's why, unlike other suppliers, we manage all our own equipment, transport and logistics ourselves. So, we can always deliver exceptional service standards no matter what you need or where you are.

WHY CHOOSE US?

Emergency support

We have a national emergency response telephone line that supports you 24 hours a day, 7 days a week, 365 days a year.

Reliability and availability

We have a highly-skilled and accredited team and a wide range of equipment, spare parts, and components to ensure quick product despatch when you need help most.

Design and consultancy

Our full turnkey solutions mean we can identify, install and commission the best solution for you from 10kVA to 24MVA (as part of a multi-set synchronous package).

Installation and project management

In the most cost-effective way, we will install and fully project manage your new power solution to the exacting controls and standards required using our accredited, industry leading ISO system.

Service and maintenance

No matter whether your generators are providing prime or back-up power, we can offer tailored, bespoke service and maintenance programmes to keep them working and ready to provide a reliable power source.

Sourcing and supply

We have supply agreements with international manufacturers so you can be confident you will get the best solution and that our spare components meet the manufacturer's OEM specification.

Whole life asset management

We offer all customers an asset management solution to help maintain the integrity of your back-up supply for as long as you have it.

Sector expertise

We have years of experience supporting businesses in a wide range of sectors including large UK-based data centres, hospitals, banks, defence, and utility companies.

Head Office opens in Heanor

2018

THERE FOR YOU. ANYTIME, ANYWHERE.

Supporting our customers is our top priority. That's why our Head Office in Heanor, Derbyshire, is nationally supported by regional facilities and nationally based field service teams spread as far south as Plymouth and as far north as Sunderland. It means no matter where you are in the country, our sales consultants, customer service advisors and engineers are never too far away.

AROUND THE CLOCK SUPPORT

Each one of our offices is on-hand to provide expert advice and our customer service teams are always just a phone call away. You can expect continuous support 24/7, 365 days a year, so whether you have worked with us on a project or have a hire contract or maintenance plan with us, you can feel confident that our team of more than 60 field engineers is ready to help.

A RAPID RESPONSE

All of our services are focused on providing our customers with a continuous power supply. However, should the worst happen and you find yourself facing an emergency situation with a sudden loss of power, you can trust that we will get things sorted quickly. We aim to get expert help to you within 4 hours of logging a call with our team. That means we will have an engineer on-site and providing an assessment for installing a temporary generator no matter where you are in the country.

ON TIME, EVERY TIME

We recognise the value of having our own fully operational, in-house logistics department. With this network in place underpinning our business, we're able to meet the specific demands of every customer and offer full support with coverage across the UK. So, unlike our competitors, we know we can get to you when you need us, with the equipment you need.

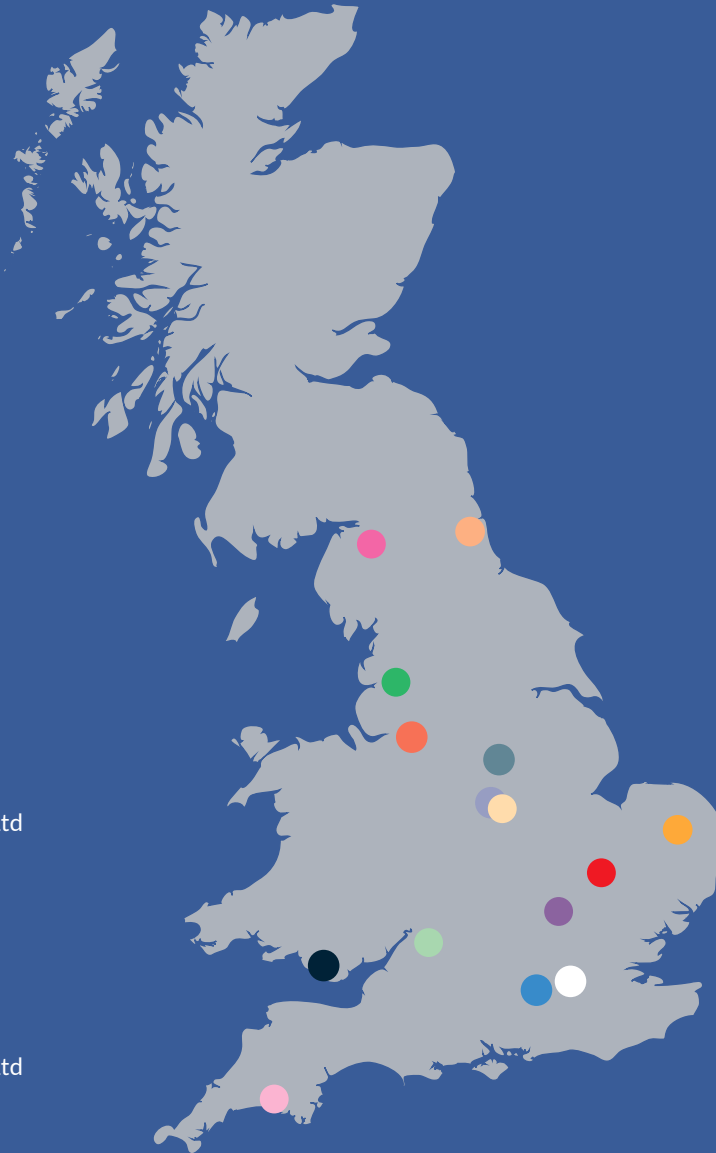

WE INVEST IN HIGH SPECIFICATION EQUIPMENT AND HAVE SERVICE DEPOTS RIGHT ACROSS THE UK. IT MEANS WE CAN REACH OUR CUSTOMERS IN THE SHORTEST POSSIBLE TIME WITH THE HIGHEST LEVELS OF SERVICE AND ADVICE.

OUR GROWING FLEET CONSISTS OF OVER 100 VEHICLES INCLUDING 4X4 AND HIAB.

WORKING WITH THE WORLD'S BEST

In 2004 we became distributors for Kohler, one of the leading industrial generator manufacturers in the world. The following year we were given "Gold" dealer status and today **we're the largest approved Kohler dealer in Europe.** So, whether you need a state-of-the-art Kohler generator or replacement parts, we can help.

WHY KOHLER?

The global engineering team at Kohler have developed a new range of engines offering unrivalled performance. They combine the highest power with superior efficiency specifically for generating sets. These engines are manufactured in France and Switzerland, in factories offering the highest level of quality. Each product is tested under rigorous operating conditions. Advantages of the Kohler product include:

- OPTIMISED SOUND LEVEL AND VIBRATIONS
- OPTIMAL CONTROL OF THE INJECTION SYSTEM
- A ROBUST, RELIABLE DESIGN
- A SLEEK, MODULAR DESIGN
- CONCENTRATED POWER

KOHLER®

Authorized Distributor

OUTSTANDING PERFORMANCE, PROVEN RELIABILITY

We offer a vast selection of high-performance Kohler engines, ranging from around 6kVA, all the way through to 4500kVA. This includes the super-efficient Kohler KD series engine range. These engines offer outstanding power in a clean, modular design and are ideal for a wide variety of applications and sectors.

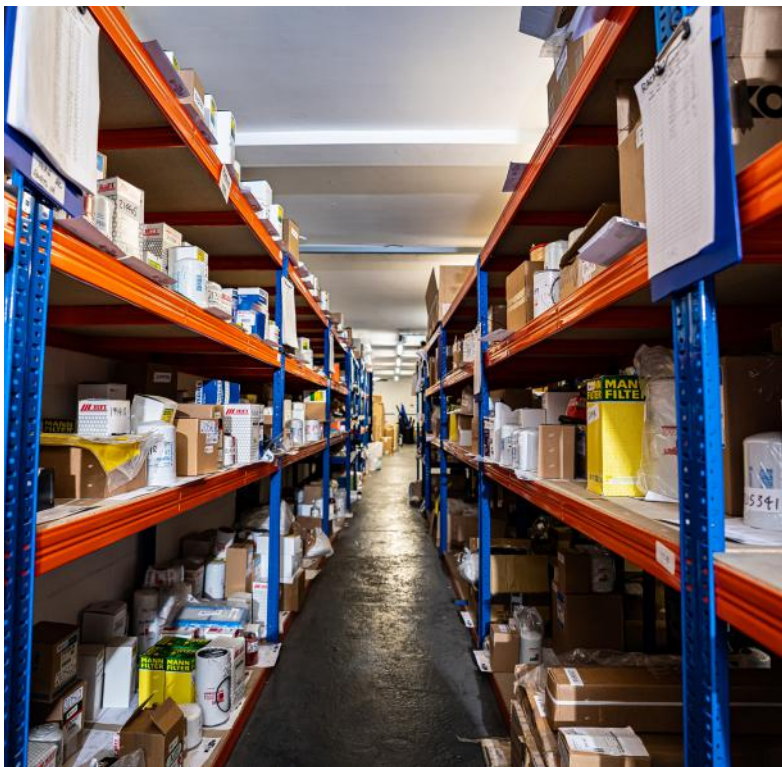

We also offer a wide variety of Kohler generators using different engine brands.

SERVICE, SALES AND PARTS

As a fully qualified and factory supported dealer, we do more than just distribute and install Kohler generators and parts – our qualified engineers carry out all aspects of maintenance too. We have thousands of genuine Kohler parts in stock so we can guarantee quick availability for all your maintenance and repair needs. These parts are designed to work perfectly with your Kohler engine to maximise engine life, extend performance and protect your investment.

We can supply you with parts such as:

- AIR FILTERS
- OIL FILTERS
- BREATHER & SEPARATOR FILTERS
- WATER PUMPS
- SEALS
- GASKETS
- FANBELTS & WATER PUMP BELTS

CRITICAL POWER PROJECTS & INSTALLATIONS

A COMPLETE TURNKEY SOLUTION

At WBPS we have a specialist team of consultants, engineers and project managers that are dedicated to delivering turnkey critical power infrastructure. They can expertly manage your project from specification to delivery (and everything in between). It means no matter the complexity, or where you are in the UK, we can plan, coordinate, deliver and hand over the keys to you at the end.

WE MAKE THINGS EASY

From the initial consultation all the way through to commissioning and ongoing maintenance, we will take care of everything. Our in-house project management department works with you to identify, install and test the best solution for you. They will consider all possible elements of your power requirements – including civil work, transformers, control and switch gear, AMF and synchronous controls, generator and UPS, acoustic and complete fuel solutions and design and install the perfect solution.

WE CAN SUPPORT YOU WITH EVERYTHING FROM SINGLE GENERATOR SOLUTIONS FROM 20KVA, ALL THE WAY UP TO 100MVA+, AS PART OF A LARGE-SCALE MULTI-SET SYNCHRONOUS PACKAGES.

IN EXPERT HANDS

We rarely use sub-contractors and instead employ specialists right across the business. It means we have the expertise in-house to do everything ourselves. That regularly includes designing and building bespoke infrastructure. We have helped install turnkey power solutions for a wide and varied customer base across all sectors including:

- DATA CENTRES
- LARGE CORPORATIONS
- GOVERNMENT BODIES
- HOSPITALS
- BANKS
- UTILITY COMPANIES
- MILITARY INSTALLATIONS
- EVENTS & HOSPITALITY
- MANUFACTURING
- MEDICAL RESEARCH
- UNIVERSITIES/SCHOOLS

GENERATOR HIRE

HIGH QUALITY EQUIPMENT FOR SHORT AND LONG-TERM HIRE

Our Hire team specialises in the hire of generators and ancillary equipment for all your power needs. So, whether you have a one-off event, a short-term project or long-term build, or require emergency power, our fleet of generators are ready to help you out 24 hours a day, 7 days a week, 365 days a year. Also, with rolling contracts available for any length of time, our solutions are as flexible as you want and as cost-effective as you need.

OUR HIRE FLEETS

We have spent years continually investing and today we have established a large rental fleet of sound attenuated diesel generators and Uninterruptible Power Supply (UPS) solutions. We also offer transport, fuel tanks, load banks, cable distribution, traffic management and UPS for hire too. All our equipment is top specification and fully maintained so you have total peace of mind.

Our fleet portfolio includes:

- 1000 DIESEL GENERATORS, RANGING FROM 20KVA – 24MVA (AS PART OF A MULTI-SET SYNCHRONOUS PACKAGE)
- HYBRID GENERATOR RANGE
- LARGE STOCK OF FUEL TANKS, CABLES, DISTRIBUTION & TRAFFIC MANAGEMENT SOLUTIONS
- LOAD BANK HIRE AVAILABLE
- HIGH POWERED UNITS AVAILABLE FROM 750KVA TO 1500KVA
- MID-RANGE FROM 200KVA – 650KVA
- SMALLER SETS FROM 20KVA – 150KVA
- TOWER LIGHTING HIRE AVAILABLE

WHATEVER YOUR HIRE REQUIREMENTS, WE HAVE THE EQUIPMENT TO SUPPORT YOU 24/7/365 ON A NATIONAL SCALE.

REMOTE MONITORING USING THE LATEST TELEMETRY SYSTEMS

Using the very latest telemetry systems, we can remotely monitor the operation of your hire generator sets while operating in an unmanned location. These controls and measures monitor:

- FUEL & COOLANT LEVELS
- OIL LEVELS & PRESSURE
- OPERATING TEMPERATURE
- BATTERY STATUS
- POWER OUTPUT

GENERATOR & UPS MAINTENANCE

PEACE OF MIND 365 DAYS A YEAR

Our expert team of over 80 specialist field engineers is dedicated to the servicing, maintenance and emergency repair of generators, including any and all ancillary equipment. With nationwide coverage, **we deliver bespoke maintenance plans and a 24-hour call out service operating 365 days a year, which puts our engineers on site within 4 hours.** It means we offer emergency support when you need it, peace of mind when you don't. We can offer:

- EMERGENCY SITE REPAIRS AND OVERHAULS
- FAULT DETECTION & ANALYSIS
- EMERGENCY PARTS SUPPLY & FITTING
- EMERGENCY FUEL SUPPLY
- EMERGENCY SITE REPAIRS AND OVERHAULS

WHATEVER YOUR MAINTENANCE REQUIREMENTS, WE CAN OFFER A COMPLETELY BESPOKE PACKAGE WHICH IS RIGHT FOR YOUR BUSINESS

BESPOKE CONTRACTS TO SUIT ALL NEEDS

Regular maintenance of your back-up energy supply is vital. That's why we have a range of bespoke maintenance contracts and services to meet your needs whether you currently own a diesel-powered generator, CHP generator or a UPS.

DIESEL GENERATOR MAINTENANCE

We provide a range of diesel generator maintenance contracts to suit all businesses and all budgets and keep your diesel generator in full working order. You can also benefit from our bespoke on-line system, which remotely monitors the condition of your generator and identifies issues before they cause problems.

UPS MAINTENANCE

Depending on an installation, a standby generator may take between 5-60 seconds to take your power load. A UPS system bridges that gap, helping avoid damage and loss of data. With regular maintenance, our engineers make sure your UPS system is always in good working order.

CHP GENERATOR MAINTENANCE

We recommend all businesses that commission a CHP installation also take out a CHP generator long-term maintenance contract to ensure maximum efficiency, safety and uptime. That's why we have developed a comprehensive maintenance programme to support all types of CHP generator installations.

GENERATOR SALES

NEW AND USED GENERATOR SALES

We have a huge range of new and used generators available and the expertise to make sure you find the right one for your needs. That includes a wide range of Kohler engines as well as Kohler generators using different engine brands, such as John Deere, Mitsubishi, Volvo and Doosan.

EXPERTISE YOU CAN TRUST

If you know exactly what you are looking for, you can buy a generator as a stand-alone product directly from us. Or you can speak to our sales consultants who will be happy to recommend a solution for you based on your requirements. So, whether that's a high-spec fixed-site set-up or just parts, we will provide as much or as little support as you want. We will then deliver the generator to your location and to your time frames.

SELLING AN OLD GENERATOR?

We buy used generators and will consider all no matter what age they are or what condition they are in. We will also collect the used generator from you. This can either be when we remove it as part of a project, or it could also be a one-off transaction. If you're interested in selling an old generator, please give our sales consultant a call.

WE HAVE ACCESS TO A VAST RANGE OF HIGH PERFORMANCE GENERATORS IN ALL SHAPES AND SIZES, RANGING FROM 10KVA TO 4500KVA
