

WATER HYGIENE

- A full range of Legionella-related services
- Remote temperature monitoring
- Secondary disinfection options including Copper and Silver Ionisation and Chlorine/Chlorine dioxide
- Legionella and Pseudomonas risk assessments
- Remedial work to resolve compliance gaps
- Legionella training options

WATER TREATMENT

- Cooling tower water treatment
- Steam boiler water treatment
- Closed system protection
- Aqua Manager web-based logbook
- Unique chemistry, blended at our manufacturing facility
- Closed system innovations including Hevasure intelligent corrosion control and recommissioning
- Asset protection systems such as side stream filtration and CPC cleaning

COMMISSIONING & PRE-COMMISSIONING

- Healthcare critical ventilation, validation and verification
- Cleanroom, commissioning, validation and particle counting
- HEPA and ULPA filter DOP integrity testing
- Balancing and testing of closed water and ventilations systems
- HVAC condition surveys and validations
- Seasonal commissioning
- Pre-commission cleaning and dynamic flushing to latest BSRIA guidance
- Closed loop pre-treatment cleaning (CPC)

MECHANICAL & ELECTRICAL

- Design, installation & maintenance of:
- Gas and oil fire heating and hot water systems
 - All types of HVAC systems
 - Gas and oil systems including G20 natural gas and G30 LPG systems to IGEM and gas safe standards
 - Air conditioning systems including VRV and VRF systems
 - All types of ventilation systems
 - All types of electrical systems (including periodic testing)

AIR COMPLIANCE

- Fire damper drop testing
- Ventilation inspection and duct cleaning
- Indoor air quality monitoring
- LEV testing
- Kitchen extract cleaning
- AHU filter changes
- Pressure testing and validation

TRAINING

- Level 2 Award in Legionella Awareness (Cooling Towers & Evaporative Condensers) (RQF)
- Level 2 Award in Legionella Awareness (Hot & Cold Water Systems) (RQF)
- Level 3 Award in Legionella Control for Responsible Persons (RQF)
- Ventilation Systems Risk Awareness
- Bespoke Onsite Training

Rock Compliance is a progressive company in the compliance market. We have three fundamental values: **minimising risk, delivering compliance** and **making it simple** for our clients. We achieve this by continually reducing actual risk through investigating root cause and taking the necessary action on the back of all non-conformances.

The result?

- An ongoing reduction in the number of non-conformances
- Low risk, compliant systems
- Minimised and predictable spend
- Highly satisfied customers who trust Rock Compliance with all their compliance needs
