Cableflow International Limited

## What will this CPD offer

- What regulation, standards and guidance apply to bedhead services
- What constitutes a '*medical supply unit*'
- How to write a clear and effective specification
- What to look out for in manufacturers claims and technical submittals
- Pitfalls in specification writing
- Ensuring that your design meets the requirements – and that the installation meets your design
- How can you embrace innovation around HTM compliance
- What products are available on the market
- Manufacturers Certification
- How to achieve the best commercial value
- Recent changes in regulation, standards & guidance
- The devil in the detail of Collateral and Particular Standards
